TOMAH3 NAMES DOVECHEMCENTRAL AS NEW DISTRIBUTOR

(Date : February 18, 2004)

TOMAH3 PRODUCTS, INC., the world largest producer of ether amines, and derivatives, and a major producer of alcohol ethoxylates, has recently appointed DoveChemCentral Pte Ltd as its distributor for **cationic** and **nonionic surfactants** in the Asia Pacific Region.

DoveChemCentral Pte Ltd ("DCC"), is a joint venture between the CHEMCENTRAL Corporation and Dovechem Group. DCC's coverages range from China, Malaysia, Indonesia, Singapore, Thailand, Vietnam, South Korea, Japan, the Philippines and to Taiwan.

Surfactants are widely used in various industrial due to their ability to reduce surface tension. For example, Nonionic Surfactant is mostly used for the production of detergent, medicine, cosmetics, and various industrial applications. While, Cationic Surfactant is usually used in the application of softener, emulsifier, and water repellent, and various industrial applications.
